EDUCATION FOR LIFE

Memorable Moments

April 2012

Challenge Night ~ a powerful, cathartic experience...

“Challenge Night at Monarch School was a powerful, cathartic experience in which the upper school students took risks to make metaphorical statements in front of their peers about who they are and how they will live their lives moving forward. The entire

school was moved by the presentations, which left the community feeling like a family full of love, hope, and inspiration.”

“The entire school was moved by the presentations...”

Challenge Night ~ a lasting impact...

“Challenge Night has always been an emotional experience at Monarch School. To see students overcome their fear and set aside the negative self-image with which they've armored themselves over the years is nothing short of inspiring. The night is a culmination of over a month of focused work designed to assist students in identifying what they truly value as op-

posed to the lies they have told themselves and others. They are each given a very personal challenge that enables each student to embody his or her core values as they let go of the various ways in which they shield others from that truth. This rite of passage builds their self-confidence as they let go of those negative judgments. The students present their challenge to the

school in a formal ceremony that leaves a lasting impact on the entire community.”
