

Did you know...

At Monarch School, our teachers nominate students at the end of each ten week quarter for academic achievement awards.

For a student to receive an academic achievement award, a student must be approved unanimously by all of his/her core academic and elective teachers.

This week, Monarch School presented students with the following nine academic achievement awards from the summer academic quarter:

- 3-academic improvement awards
- 4-academic diligence awards
- 2-academic excellence awards

These nine students received a certificate, and the award is listed on their academic transcript.

"I felt such pride standing in front of the school receiving my academic achievement award this week. I worked very hard last quarter and my grades now reflect my potential as a student. I now have the determination and the work ethic to accomplish my goals for a successful future."
~ Academic Excellence Award Student
