

Did you know...

For the last four years Monarch School has offered our students a 10-week elective class exploring the geology, ecology, and history of Yellowstone National Park. Students also enjoy an extended three day trip in Yellowstone, taking a guided snow coach tour, skiing the area surrounding Old Faithful, capturing a glimpse of a variety of animals in their natural habitat, and visits to the interpretive center, education seminars and examination of exhibits.

The Yellowstone trip is especially appealing to students who have a keen interest in science and nature. Students participating in this adventurous class receive 1-elective credit. There is no extra cost for this trip, expenses are covered in the monthly tuition.
