

Monarch School exists to provide young adults with a foundation of knowledge and self-awareness to achieve their dreams

Family Support!

One of Monarch School's missions is to help teens and their families reconnect. While students are here doing their "work," parents are supported in many ways to change negative family patterns and establish/develop healthier ways to communicate with their children. Together, parents and students relearn how to communicate effectively, acknowledge past mistakes, and move on to the future with new and more effective tools.

At Monarch School, we offer our families the following support:

- Weekly Phone Calls with the student's Primary Therapist
- Monthly Parent Chats that provide additional parenting skills. This month's call is on *"The benefit of a loving separation: letting go with love."*
- On Campus Parent Conferences Every Two Months
- The Monarch Parent Foundation
- An assigned Alumni Parent Mentor for additional support
- Pre-Graduation Workshop that focuses the family on the transition from Monarch School
- Optional Family Counseling Services tailored to meet the family's needs

A "Splash" with Family!

One of many whitewater rafting trips we take with students and their families each year. [Click here.](#)
