

Did you know...

One, of many, unique qualities of Monarch School is that we are family owned by Patrick and Michelle McKenna. Every day, you feel their personal commitment to our families, our students, our parents and all our staff. The dedication they share with our community provides the foundation for trust and safety that is felt by all at Monarch School. Patrick and Michelle live on campus part-time which provides them the time in the evenings to have dinner with students and support their needs until students head to their dorms for a good nights sleep. In the summer months, at the end of a busy week of school and therapeutic work, Patrick and Michelle take a group of students on Lake Pend Oreille for some water skiing and belly wamping, followed by dinner at a local restaurant on the lake. Their passion and involvement is what makes, and keeps, Monarch School such a special place.

We invite you to take a journey into Monarch School, take a moment to view our 7-minute video, [click here.](#)
